- 1 End Cap**
Made of nylon or plastic, the pair of end caps support the cage wire and act as bearings while rolling.
- 2 Cage**
The cage supports the roller cover and spins smoothly, look for a four to five cage roller to help achieve a premium finish as it supports the sleeves evenly.
- 3 Cage Pin**
High-quality, conventional frames have four or more wires to help the roller sleeve keep its shape.
- 4 Shank**
Sturdy chrome-plated 8mm wire that connects the functioning cage to the grip.
- 5 Thread Handle**
Allows the roller frame to be attached to an extension pole for ease of use.

Classic Features for all Toolway Roller Frame Cages

- Galvanized steel paint roller cage.
- For use with all our Standard and Jumbo paint roller refills.
- Heavy-duty plastic handle accepts standard screw fit extension poles.

ROLLER CARE
Clean your roller thoroughly, Remember to clean your rollers with water or the appropriate solvent depending on the type of paint that was used. Allow to dry. Never leave your brush standing in water or turpentine.

- Comfortable grip handle

Push N Lock

- Seul serrures à pression pour une maniabilité facile
- Poignée confortable

Durable and Reusable

Unique 'quick connect' feature allows you to switch from brushes to rollers without having to unscrew them. A simple touch of a button will disengage the entire attachment, allowing you to make the change without the extra mess.

Inverted Tip Spray Paint, 17oz

KRYLON
INDUSTRIAL

FLUORESCENT ORANGE
85093702

Quik-Mark™ Solvent-Based Inverted Marking Paints have a high solids formulation that gives them the boldest, brightest and most visible markings in the industry. These fast-drying products penetrate and adhere to hot surfaces, and deliver a line you can count on for all your surveying and marking needs.
